**Toronto, Ontario - April 11, 2008** - Get a handle on the season with a handbag with personality. You'll pack a punch with a bag in spring's hottest brights that include yellow, turquoise, fuchsia, coral and grass green. For a bit of 'guilty' pleasure, metallic handbags in silver or bronze offer an eye-catching alternative to the season's bold hues. And for a pure but not so simple look, consider a bag in spring's coolest neutral, white. Slick patent finishes as well as bold metal accents give handbags a modern edge. So whether you're a gal on the go who prefers the ease of a cross body bag or someone who loves the glam appeal and functionality of a larger size satchel, all Laura, Laura Petites, Laura Plus and Laura Superstores ([www.lauracanada.com](http://www.lauracanada.com)) now offer a stunning selection of well priced handbags that won't tug at your purse strings.
